Abstract: Is access to clean drinking water a basic human right, or a commodity that should be bought and sold like any other article of commerce? Stephanie Soechtig exams the big business of bottled water. Viewers get a behind-the-scenes look into the unregulated and unseen world of an industry that aims to privatize and sell back the one resource that ought never to become a commodity: our water. Here is a powerful portrait of the lives affected by the bottled water industry

Notes: This film is a member of the Clinton Global Initiative.
